

He Must Have the Missourian.

J. A. Lawson, who was graduated from the University four years ago, writes the Missourian that he recently allowed his Missourian subscription to expire, believing that he would not miss the paper after an absence of four years "But I find," he says, "that I miss the paper more than the price; so here comes the check."

ADVERTISEMENT**THE "NE'ER-DO-WELL."**

"THE NE'ER-DO-WELL," by Rex Beach, the Selig spectacular drama filmed by the Selig Polyscope Company, features Wheeler Oakman and Kathryn Williams and an all-star cast. The hero is Kirk Anthony, a college graduate and veteran football player, and since graduation the coach of his university team. On the evening following a football victory, the last of the season, Kirk and others start out to celebrate. Late that night he finds himself on shipboard, and when he awakens he is without money and without baggage.

During the voyage, Kirk becomes acquainted with a woman—A Mrs. Stephen Cortlandt—whom he learns to admire very much. She is really a diplomatic agent of great influence. One day while Kirk is out hunting he meets in a forest bower, a Spanish girl who is known only as "Chiquita." He falls desperately in love with her, and tries vainly to discover her identity.

The story of his making good, of his winning of Chiquita despite the counter-plottings of Mrs. Cortlandt, of the clearing of his name, and of the final decisive intervention in Panamanian affairs of old Darwin K. Anthony, is strongly engrossing and varied by many richly humorous episodes.

Chiquita is by far the most charming feminine character Rex Beach has drawn, and Kathryn Williams, as Edith Cortlandt, is an exceeding, convincing and fascinating type.

"THE NE'ER-DO-WELL" will be shown on Oct. 5-6 at the Star Theatre.

FOUGHT WHEN HIS HORSE LOST**J. W. Hollman Angry When Johnnie Jones Is Awarded \$2,500 Stake.**

Angered because Johnnie Jones, prize saddle horse owned by E. D. Moore of Columbia and Colonel Paul Brown of St. Louis, was awarded first money while his own entry, Ruth St. Denis, got only seventh place in the \$2,500 saddle stake at the State Fair at Sedalia yesterday, a dispatch to the St. Louis Post-Dispatch says J. W. Hollman assaulted one of the judges, James L. Bright of St. Louis, before a grandstand packed with 15,000 people. Mr. Hollman's mount got a big hand from the audience and when the decision was announced he climbed off his horse and told the judges his opinion of them. Bright resented his remarks and the two fought, says the dispatch, until a policeman stopped them.

Both Johnnie Jones, now Missouri's prize saddle horse, and Ruth St. Denis, owned by Blades and Holman of Holliday, Mo., are well-known horses in Columbia. They have been exhibited at both the Boone County Fair and the Commencement Horse Show on Rollins Field during the last two years. Mr. and Mrs. Hollman have been frequent visitors to Columbia with their fine horses.

Lawrence Barrett, owned by O. J. Moores of Columbia, won sixth place in the big saddle stake. Lena, owned by Ball Brothers of Versailles, Ky., took second prize.

Acacia Pledges Eight Men.

Eight student Masons have been pledged by the Acacia fraternity. They are Leon Chapman Dennis, Prince Bay, N. Y.; Knowles Sullivan, Clever; Carl S. Williamson, Columbia; A. Flem Baker, Platte City; John H. Spence, Bonnetterre; F. O. Okerblad, Burlington, Vt.; C. A. Keeny, Harrisburg, Pa.; and Herbert W. Walker, Atchison, Kans.

M. J. STUDENT MAKES IMPROVED LINOTYPE

J. S. Urie Invents Machine Having Speed of 250 Words Per Minute.

SETS IN SYLLABLES

Studied Dictionary in Experiments—New Company to Manufacture it.

A typesetting machine that will set 250 words a minute is an invention that John S. Urie, a student in the School of Journalism, has been working on during the past three years. The machine will give more than double the speed of the present linotype.

The principal of the machine is to set type by whole syllables rather than by individual letters as in the linotype. Urie's machine will assemble the letters in units of a whole syllable at a time. The word "run" will be made by one stroke instead of by three.

The keyboard with which a whole syllable can be struck at a single stroke is accomplished by combining three keyboards into one. The three keyboards are arranged, one for the initial consonants, one for the vowels, and one for the final consonants. The arrangement of the keys within the keyboards Urie is keeping secret. He says he can provide for all combinations with a total of forty-eight keys, which is less than twice the number on a typewriter.

The new typesetting machine will be much simpler mechanically than the present linotype. It will be composed of only three mechanical units. While the linotype has five. The machine will require mechanism different from the linotype.

"I acquired the idea as a result of a disappointment," he said. "I was working on a machine whose keys would be for phonetic spelling as in shorthand, but which will give the normal English spelling as a product. I went through the dictionary 18 times and arrived at the conclusion that the men who had shaped the English language knew nothing of phonetic spelling. The division of a syllable into the three parts is an arrangement which will give a speed nearly that with which one can write phonetically. My primary assumption was that any increase in speed over the present typesetting machines must be gained by increasing the speed with which the operator can use the keyboard."

Urie has submitted his model dummy keyboard to Professor Max F. Meyers, of the department of psychology of the University. From the psychological standpoint of striking the keys Urie's device is entirely correct and will give a marked increase in speed, Professor Meyer says. To become proficient on such a keyboard will take the same time required to learn shorthand.

Urie has submitted his invention to three large typesetting machine companies, all of whom have declined to manufacture the machine because of factory changes required. A company is being organized in Oklahoma to manufacture and place the machine on the market.

W. C. T. U. Meets Tomorrow.

The W. C. T. U. will meet at 2:30 Monday at the Methodist church to discuss special business matters.

CITY AND CAMPUS

Miss Mary Still, a student in the University, is spending the week-end at her home in Normandy, Mo.

Mr. and Mrs. Will Prevot of Brighton, Ill., returned home yesterday after a short visit with relatives in Columbia.

P. F. Prunty of Rogers, Ark., was in Columbia yesterday on his way to DeWitt, Mo., where he will visit relatives for the next ten days.

The Rev. R. C. Abram of Columbia is filling the pulpit of the Christian Church in Carrington, Mo., today.

Mrs. Fred Vest and daughter of St. Louis returned home yesterday morning after a six weeks' visit with Mr. and Mrs. R. C. Abram.

Mrs. S. C. Hunter returned yesterday to her home in Marshall, Mo., after visiting her daughter in Columbia for two weeks.

Will Kloethe returned yesterday to his home in Hot Springs, Ark., after a visit with relatives in Columbia.

Miss Sally Northcutt, who attended the funeral of Miss Mary Northcutt here, has returned to her home in Carrollton, Mo.

Miss Etal Lyons, who is now teaching in De Soto, Mo., is spending the week-end in Columbia. She is staying at Read Hall.

Miss Bab Bell, who was in charge of the University's home economics display at the state fair in Sedalia, returned Friday leaving the exhibit in charge of Miss Mary Robinson for the remainder of the week.

Howard Hackedorn, of the animal husbandry department of the College of Agriculture, went to Kansas City yesterday to attend the American Royal Live Stock Show.

Mrs. Homer R. Mitchell and son, James, are visiting Mrs. D. T. Mitchell, 301 College avenue.

About twenty-five students in botany, headed by Prof. G. M. Reed, spent yesterday in field work near McBaine.

Knowles Sullivan of the College of Agriculture will return this afternoon from St. Louis.

Joseph D. Elliff will leave tomorrow for a two weeks' trip on University business in the vicinity of St. Louis.
